

FORSURE URINE DRUG TEST

FORSURE Urine Drug Test is a rapid urine screening test that can be performed anywhere without the use of instrument. The test utilizes antibody to selectively detect elevated levels of a specific drug in urine. The result is easily read within 5 minutes with either a positive or negative answer.

FORSURE Urine Drug Test comes in various formats including single strip, multi panel of 3 drugs, 5 drugs or 7 drugs. The strips are coded in different colours for easy differentiation. Also available are the multi-panel DOA cup test and single cassette test to pair with the Quantas™ Reader.

FORSURE

URINE DRUG TEST

Product Code	Description	Format	Size
FS-AMP-S35-100	Forsure Amphetamine rapid test	Strip	100 tests/box
FS-BAR-S35-100	Forsure Barbiturates rapid test	Strip	100 tests/box
